AUTHOR INDEX

AHMANN, C. F., cobalt in bovine nutrition, 406, 741
ALDOUS, A. E., carotene of pasture, 557
ALLEN, N. N., A. I. V. alfalfa silage, 429; sunflower silage, 221
ANDERSON, E. O., mastitis, 171
ANDERSON, T. G., salts on growth of bacteria, 445
ARBUCKLE, W. S., dipping of ice creams, 456
ARMSTRONG, T. V., curd tension measurements, 465
ARNOLD, FLOYD, breeding values, 440
ARNOLD, P. T. DIX, calculation of rations, 501
ASIMOV, G. J., lactogenic preparations, 289
ATKESON, F. W., carotene of pasture, 557; dairy herd books, 402; detection of mastitis, 442

BABCOCK, C. J., quality improvement project, 497
BALDERSTON, R. W., milk plants, 449
BARRETT, W. D., resazurin test, 705
BARTLETT, J. W., molasses grass silage, 424
BARTRAM, M. T., Escherichia-Aerobacter in milk, 105
BECHDEL, S. I., rickets in calves, 434; vitamin A of milk, 521; vitamin D for calves, 432
BECK, G. H., oxidized flavor, 431
BECK, H. H., irradiation of milk, 435
BECKER, R. B., "bush sickness" in cattle, 737; physiological processes, 408
BEESON, W. M., A. I. V. silage, 611
BENDER, C. B., grass silage, 426; molasses grass silage, 424
BENDIXEN, H. A., churn cleaning methods, 15
BERGMAN, A. J., colostrum of goat, 37
BIRD, E. W., acidity in cream, 459; fat in buttermilk, 1; strawberry ice cream, 454
BIRD, H. R., A. I. V. silage, 611
BLACK, L. A., Escherichia-Aerobacter in milk, 105
BOHSTEDT, G., mineral mixtures, 405; molasses and A. I. V. silage, 430
BORLAND, A. A., dairy seminar, 504; media for Escherichia-Aerobacter, 445
BREAZEALE, D. F., acidity in cream, 459; fat in buttermilk, 1
BRERETON, JOHN G., detection of copper, 197
BRODY, S., chest girth of cattle, 403
BROWN, W. CARSON, oxidized flavor, 133, 599
BROWN, W. H., pH of butter, 463
BYERS, E. L., brick cheese, 307
BURGWALD, L. H., curd tension measurements, 465; phosphatase test, 473

CANNON, C. Y., corn sugar in grain, 413; freshening dates of cows, 401; soybean flour, 117
CASIDA, L. E., gonad-stimulating hormones, 395
CAULFIELD, W. J., deterioration of cream, 458, 667; power for freezing ice cream, 453, 645
CAVE, H. W., dairy herd books, 402; detection of mastitis, 442; development of calves, 415
CHAMBERS, LESLIE A., sonic homogenization, 450
COLE, C. L., sunflower silage, 221; weight of calves, 113
COMBS, W. B., ripening blue cheese, 469, 470; weed flavor, 458
CONNELLY, R. G., bull associations, 476
CONTURE, G. W., mastitis, 171
COPELAND, LYNN, production in Jersey cows, 151
CORBETT, W. J., determination of diacetyl, 456
COULTER, S. T., chemical analysis of butter, 351; ripening blue cheese, 469, 470; weed flavor, 458
CRANDALL, W. T., extension program, 481
CURTIS, L. R., ropy milk, 147

DAHLBERG, A. C., feeding cod-liver oil to calves, 59
DAHLE, C. D., bound water in dairy products, 472, 551, 605, 637

DAVIS, H. P., artificial insemination demonstration, 397
DENNIS, C. J. DREXEL, milk counts in various media, 445
DEVEREUX, E. D., methylene blue reduction, 719
DICKERSON, GORDON E., measures of inherited ability, 437
DONOVAN, R. L., sunflower silage, 221
DUNCAN, C. W., acetonemia and ketonuria, 408
DUSTMAN, R. B., oxidized flavor, 133, 599
DUTCHER, R. A., vitamin A of milk, 521

EPPLE, W. F., lactic acid in butter, 463
ERIKSON, J. A., microflora of cheese slime, 464
ESPE, D. L., corn sugar in grain, 413; freshening dates of cows, 401; soybean flour, 117
EWALT, H. P., pasture returns, 420

FABRICUS, N. E., acidity in cream, 459
FARRALL, A. W., evaluating homogenization, 451
FARRELL, MICHAEL A., Escherichia-Aerobacter in milk, 67
FAY, A. C., cream deterioration, 458, 667; detection of mastitis, 442
FITCH, J. B., A. I. V. alfalfa silage, 429
FLAKE, J. C., keeping quality of butter, 460
FLOYD, J. ARNOLD, testers' training course, 488
FOHRMAN, M. H., Bang's disease, 537
FRY, L. B., non-foaming casein, 449

GADDUM, L. W., "bush sickness" in cattle, 737
GAINES, W. L., maintenance of cows, 583
GARRETT, O. F., grass silage, 426
GAUNTT, E. A., 4-H club demonstrations, 496
GEARHART, C. R., records for dairy herd improvement, 489
GEORGE, SPENCER, ripening blue cheese, 469
GIBSON, D. L., Oospora lactis, 447
GIFFORD, WARREN, sire exchange lists, 477
GOLDING, N. S., gas requirements of blue mold, 319
GOMEZ, E. T., adrenal hormone, 410
GOSS, E. F., dairy industry experience, 506; hard cheese analysis, 27
GOULD, I. A., moisture of cheese, 468, 625
GRAHAM, W. R., metabolism of mammary gland, 413; thyroxine, 412
GRAVES, R. R., Bang's disease, 537; vitamin A of butterfat, 428
GREGG, V. L., trench silos, 476
GUERRANT, N. B., vitamin A of milk, 521; vitamin D for calves, 432
GUEST, W. E., milk plants, 449
GULLICKSON, T. W., rations devoid of roughage, 419

HAAG, J. R., pasture returns, 420
HAMMER, B. W., bacteriophage for Streptococcus lactis, 444; homogenization of blue cheese, 468; Pseudomonas fragi, 448; ripening blue cheese, 469
HANSEN, E. N., retention of knowledge, 500
HANSEN, H. C., mastitis, 199
HANSON, R. L., evaluating homogenization, 451
HARRIS, G. M., judging dairy 4-H club work, 495
HARRISON, THOS. B., college creameries, 502; sogo ice cream, 453
HAUGE, S. M., vitamin A and soybean oil, 429; vitamin A of butter, 87; vitamin A of milk, 31
HAYS, J. G., feed meeting, 484
HEDRICK, THEODORE, organisms in butter serum, 442
HEGSTED, D. M., molasses and A. I. V. silage, 430
HEIZER, E. E., conducting breeding programs, 478
HENDERSON, H. O., course in public health, 503
HENDERSON, J. L., flavor of milk, 679
HERMAN, H. A., thyroxine, 412
HERRINGTON, B. L., detection of copper, 197
HICKEY, R. C., bacterial count of ice cream, 755
HILEMAN, J. L., oxidized flavor, 47
HILKER, L. D., homogenization of milk, 281
HILSTON, NEAL W., rickets in calves, 434; vitamin D for calves, 432
HILTON, J. H., vitamin A and soybean oil, 429; vitamin A of butter, 87; vitamin A of milk, 31

HODGSON, R. E., apple-alfalfa silage, 423; vitamin A of butterfat, 427
HODSON, A. Z., charts of feeds, 567
HORRALL, B. E., lactic acid in butter, 463
HUCKER, G. J., Cheddar cheeses from low curd milk, 464
HUFFMAN, C. F., acetonemia and ketonuria, 408
HUGHES, J. S., development of calves, 415
HUSSONG, R. V., Streptococcus cremoris and Streptococcus lactis, 101

IVERSON, C. A., strawberry ice cream, 454

JACK, E. L., electrokinetic potential of fat, 551, 605, 637
JACKSON, H. C., irradiation of milk, 435
JENKINS, HERBERT, oiling off of cream, 723
JOHNSON, J. J., fat in ice cream, 159; Mojonnier test, 563
JOHNSON, R. E., mastitis, 171
JOHNSTON, FLOYD, dairy herd improvement association, 491
JONES, I. R., pasture returns, 420

KEITH, J. I., gummy body of butter, 462; salts on properties of ice cream, 452
KELLY, C. D., Limburger cheese, 239
KEENAN, J. A., resazurin test, 705
KNOTT, J. C., apple-alfalfa silage, 423; vitamin A of butterfat, 428
KROUZE, N. K., lactogenic preparations, 289
KUHLMAN, A. H., avitaminosis in heifers, 417; gummy body of butter, 462; mungbean silage, 423

LANE, C. B., homogenization of blue cheese, 468; ripening blue cheese, 469
LEIGHTON, ALAN, whipping ice cream mixes, 371
LEVITON, ABRAHAM, whipping ice cream mixes, 371
LEVOWITZ, DAVID, churning process, 657
LIGHT, ROBERT F., Rickets in calves, 434
LINN, JAS. W., financing 4-H club, 494; subsidizing testing, 487
LITTLE, LAWRENCE L., washing powders, 93
LONG, H. F., Pseudomonas fragi, 448
LOY, W. C., vitamin A of milk, 31
LUCAS, P. S., composite tests, 456
LUSH, JAY L., breeding values, 440
MCAULIFFE, H. D., media for Escherichia-Aerobacter, 445
MCCUBBIN, W. G., ripening Cheddar cheese, 466
MACK, M. J., oiling off of cream, 723
MACY, H., microflora of cheese slime, 464; Oospora lactis, 447
MARQUARDT, J. C., Cheddar cheeses from low curd milk, 464; cheese freezing, 467; Eleventh World's Dairy Congress, 395
MARTIN, W. H., cream deterioration, 458, 667; oxidized flavor, 431; power for freezing ice cream, 453, 645
MAYNARD, L. A., feeding cod-liver oil to calves, 59
MILLER, JR., FRED W., Bang's disease, 537
MILLER, J. I., charts of feeds, 567
MIXNER, J., molasses grass silage, 424
MOORE, H. C., sampling for butterfat tests, 399
MOORE, L. A., vitamin A requirements, 427
MORRIS, A. J., hard cheese analysis, 27
MORROW, K. S., sampling for butterfat tests, 399
MORTENSEN, M., dairy graduates, 506
MORTON, W. H., teacher interprets research, 396
MUDGE, C. S., salts on growth of bacteria, 445
MUELLER, W. S., nutritive value of chocolate milk, 359
MURER, H. K., vitamin A of butterfat, 428

NALBANDOV, ANDREW, avitaminosis in heifers, 417; mungbean silage, 423
NEAL, W. M., cobalt in bovine nutrition, 406, 741
NEEL, L. R., limited grain feeding, 418
NELSON, D. H., chemical analysis of butter, 351
NELSON, F. E., bacteriophage for Streptococcus lactis, 444
NUTTING, RICHARD C., mastitis, 199
NYSTROM, A. B., the tester's work, 490

OLSON, H. C., citric acid fermenting streptococci, 442
ORMOND, J. I., fat in ice cream, 159
OTIS, C. K., power for freezing ice cream, 453, 645

PARFITT, E. H., pH of butter, 463; keeping quality of butter, 460; yeast and mold count, 447
PARKHURST, R. T., replacing whole milk in calf raising, 414
PARKER, M. E., quality improvement of creamery butter, 461; chemical analysis of butter, 351
PERKINS, A. E., ammonia in milk, 474; energy equivalent in milk, 129
PETERSEN, W. E., A. I. V. alfalfa silage, 429; hair pigment, 435
PETERSON, W. J., carotene of pasture, 557
PETERSON, W. H., A. I. V. silage, 611
PLASTRIDGE, W. N., mastitis, 171
POWELL, E. B., carotene intake, 428
PRICE, F. E., incubator for mother starter, 443
PRICE, WALTER V., acid defects in cheese, 471; acidity of brick cheese, 471; brick cheese, 307; hard cheese analysis, 27
PYENSON, H., bound water in dairy products, 472

RAGSDALE, A. C., chest girth of cattle, 403
RAMSDELL, G. A., condensed whey, 448
REECE, R. P., hormonal control, 411
REGAN, M. J., dairy pasture, 483
REICHART, E. L., ripening Cheddar cheese, 466
REID, W. H. E., dipping of ice creams, 456
RENNER, KENNETH M., course in dairy industry, 504; solids tester for ice cream, 452
RICHARDSON, G. A., non-foaming casein, 449
RIDDELL, W. H., development of calves, 415; vitamin C of milk, 9
RINK, C. W., gummy body of butter, 462; salts on properties of ice cream, 452
RITCHIE, W. S., nutritive value of chocolate milk, 359
ROADHOUSE, C. L., flavor of milk, 679; junior colleges, 499
ROLAND, C. T., oxidized flavor, 213, 345
RUEHE, H. A., determination of acetyl, 456; extramural courses, 504
RUTAN, H., resazurin test, 705

SAFFORD, C. E., skimmilk agar, 577
SALISBURY, G. W., charts of feeds, 567
SALISBURY, S. M., herd test, 761
SANDERS, G. P., hard cheese analysis, 27
SANDSTROM, W. M., hair pigment, 435
SCHEIDENHELM, E. C., dairy herd improvement association, 492
SEATH, D. M., are culls really culls, 440; judging dairy 4-H club work, 495
SHADWICK, JR., G. W., microbiological examination of creamery butter, 446
SHARP, PAUL F., determination of lactic acid, 77
SHAW, A. O., mastitis, 199; vitamin A of milk, 521
SHEPHERD, J. B., dry matter in corn silage, 421
SHERMAN, J. M., Streptococcus cremoris and Streptococcus lactis, 101; Streptococcus cremoris, 205; Streptococcus durans, 165; Streptococcus lactis, 83
SHOPTAW, LAVAN, soybean flour, 117
SMITH, H. J., carotene intake, 428
SOMMER, H. H., oxidation of butterfat, 181, 265; processed cheese, 231; test for copper, 475
SORENSEN, C. M., oxidized flavor, 213
SPICER, D. W., acid defects in cheese, 471; acidity of brick cheese, 471
STARK, C. N., skimmilk agar, 577
STEBNITZ V. C., oxidation of butterfat, 181, 265; test for copper, 475
STEWART, G. F., sediment in butter, 509
STORRS, A. B., phosphatase test, 473
STOLTZ, R. B., Annual Meeting, 785; Borden Awards, 765; circulation of Journal, 793
STRYNADKA, N. J., microscopic count, 685

TARASSUK, N. P., non-foaming casein, 449
TEMPLETON, HUGH L., photomicrographic study of processed cheese, 470; processed cheese, 231
THOMSEN, L. C., chemical analysis of butter, 351
THORNTON, H. R., methylene blue reduction, 693; microscopic count, 685
THURSTON, L. M., oxidized flavor, 133, 599
TOBIN, H. A., acetonemia and ketonuria, 408
TREBLER, H. A., oxidized flavor, 345
TRIMBERGER, GEORGE W., artificial insemination demonstration, 397
TROY, H. C., determination of lactic acid, 77

TUCKER, H. H., grass silage, 426; molasses grass silage, 424
TURGEON, JULES, test for copper, 475
TURK, K. L., extension program in feeding, 481
TURNER, C. W., adrenal hormone, 410; colostrum of goat, 37; endocrine glands and milk secretion, 436; hormonal control, 411; thyroxine, 412

VAN DER MEULEN, P. A., churning process, 657

WALLIS, G. C., vitamin D deficiency, 434; vitamin D of butterfat, 433
WARD, CLIFTON A., corn sugar in grain, 413
WASHBURN, L. E., fermentation losses in cattle, 407
WEAVER, EARL, avitaminosis in heifers, 417; mungbean silage, 423; salts on properties of ice cream, 452
WEBB, B. H., condensed whey, 448; silage crops, 247
WEBB, R. E., oxidized flavor, 47
WECKEL, K. G., irradiation of milk, 435
WEIRETHER, F. J., mastitis, 171
WEISER, HARRY H., milk counts in various media, 445
WHITAKER, R., homogenization of milk, 281; oxidized flavor, 213
WHITE, G. C., mastitis, 171
WHITNAH, C. H., oxidized flavor, 431; vitamin C of milk, 9
WILBUR, J. W., vitamin A and soybean oil, 429; vitamin A of butter, 87; vitamin A of milk, 31
WILLARD, H. S., hay consumption of calves, 414
WILLIAMS, W. L., Streptococcus mastitis, 711
WILLINGHAM, J. J., strawberry ice cream, 454
WILSON, J. K., silage crops, 247
WILSTER, G. H., chemical analysis of butter, 351; hard cheese analysis, 27; incubator for mother starter, 443
WILSTON, NEAL W., Rickets in calves, 434
WING, HELEN UPTON, Streptococcus durans, 165
WYLIE, C. E., college creameries, 502; dairy instruction, 499; limited grain feeding, 418; sogo ice cream, 453

YALE, M. W., bacterial count of ice cream, 755
YAWGER, JR., E. S., Streptococcus cremoris, 205; Streptococcus lactis, 83

SUBJECT INDEX OF ORIGINAL ARTICLES—1937

ABORTION, 537
Acidity,
  butter, 463, 463
  cheese, 471, 471
  cream, 459, 460
Adrenal cortical hormone, 410
Advanced registry, 515
A. I. V. silage, 429, 430, 611
Alfalfa,
  silage, 611
American Dairy Science Association,
  announcements, 65, 219, 288, 379
  Borden award, 119, 765
  committees on analysis of dairy products, 63
  program of annual meeting, 117, 169, 381
  report of annual meeting, 785
  students judging contest, 120
  JOURNAL OF DAIRY SCIENCE circulation, 793
Ammonia in milk, 474
Analytical methods (chemical),
  butter, 351, 461
  buttermilk, 1
  cheese, 27, 468, 625
  copper, in alloys, 197
  diacetyl, 456
  ice cream, 159, 452, 563
  milk, 399, 457, 474, 475, 563
  preservatives, 77
  washing powders, 93
Apple silage, 423
Artificial insemination, 397
Avitaminosis, 417

BABCOCK test,
  buttermilk, 1
  ice cream, 159
  milk, 399, 457
Bacteria,
  citric acid fermenters, 442
  Escherichia-Aerobacter, 67, 105, 444
  growth, 445
  Pseudomonas fragi, 448
  Streptococcus cremoris, 101, 205
  Streptococcus durans, n.sp., 165
  Streptococcus lactis, 83, 101, 442, 444
  Streptococcus mastitis, 711
Bacterial counts,
